QUALITY PRODUCTS • SINCE 1939

## AEROSOL PRODUCTS

### Save Time & Reduce Waste

## KARDOL HIGH BUILD PRIMERS

Kardol High Build Primers are designed for excellent adhesion and film build. Apply to metal, aluminum, flexible and rigid plastics, polyester body filler and properly prepared, cured painted surfaces. Easy to sand. Compatible with most automotive coatings.

Part # 100510 Grey  
Part # 100511 Black

## KARDOL 2N1 PRIMERS

Kardol 2N1 Primers provide excellent film build over sand scratches and body filler. Apply to metal, aluminum, SMC, fiberglass, polyester body filler, flexible and rigid plastics, and properly prepared, cured painted surfaces.

Part # 100515 Grey  
Part # 100516 Black  
Part # 100517 White

## KARDOL DTM PRIMER

Kardol DTM Primer etches and fills in one step. Great for quick repairs. Apply to bare metal, aluminum, properly cured and prepared solvent resistant painted surfaces and cured body filler. Compatible with most automotive refinishing coatings.

Part # 100514

## KARDOL KAR PREP

Kardol Kar Prep is formulated to lift and remove dirt, oil and grease from metal and plastic surfaces. Use for all pre-paint applications.

Part # 100522

## KARDOL SELF ETCH PRIMER

Kardol Self Etch Primer provides excellent adhesion and corrosion protection to bare metal, aluminum, SMC, fiberglass and cured painted and prepared surfaces. Compatible with most automotive refinishing coatings.

Part # 100520 Grey  
Part # 100521 Black

## KARDOL GUN CLEANER

Kardol Gun Cleaner blasts away fresh paint material from fluid passages and behind the fluid nozzle without disassembly. Made with 100% virgin solvent blend.

Part # 100524

## KARDOL WELD THRU PRIMER

Kardol Weld Thru Primer is a zinc enriched coating that minimizes welding splatter while providing corrosion protection between welded substrates.

Part # 100523

## KARDOL GUIDE COAT

Kardol Guide Coat is designed to detect imperfections during sanding surfaces preparation. Dries fast and sands easily without clogging sandpaper.

Part # 100509

# Aerosol Products

## KARDOL TRIM BLACK

Kardol Trim Black stays flexible and matches OEM color. No primer required. Apply to clean and prepared metals and plastics.

Part # 100501

## KARDOL PAINTABLE UNDERCOATING

Kardol Paintable Undercoating dries quickly to a non-tacky paintable surface. Protects against rust, corrosive elements, chipping, and deadens sound. Apply to door panels, fenders and trunks. Compatible with most automotive refinish coatings.

Part # 100525

## KARDOL ADHESION PROMOTER

Kardol Adhesion Promoter increases adhesion to automotive plastics and prepared painted and metal surfaces. Great on TPO and polypropylene. Compatible with most automotive refinish coatings.

Part # 100500

## KARDOL RUBBERIZED UNDERCOAT

Kardol Rubberized Undercoat dries quickly to a non-tacky surface. Protects against rust, corrosive elements, chipping and deadens sound. Apply to door panels, fenders and trunks. This undercoat cannot be painted.

Part # 100526

## KARDOL 1K CLEAR

Kardol 1K Clear is the answer for cut-ins, trunks, under hood and jambs. NESHAP shop floor compliant. Compatible with most automotive refinish coatings.

Part # 100504

## KARDOL OEM E-COAT

Kardol OEM E-Coat is a DTM coating designed to recoat for cut in engine compartments, trunks, support rails and inner body panels. Use on steel, aluminum, primer, and cured painted and prepared surfaces. Compatible with most automotive refinish coatings.

## KARDOL CHIP GUARDS

Kardol Chip Guards match OEM textures and protect lower panels from chipping and abrasion. Compatible with most automotive refinish coatings.

Part # 100502 Black

Part # 100503 Beige

Part # 100505 Black

Part # 100506 Olive Green

Part # 100507 Light Green

Part # 100508 6 Pack (2 each color)
